

INTERDISCIPLINARY CENTRE FOR
ADVANCED MATERIALS SIMULATION

- 15.04. Paul Josef Mauk University of Duisburg-Essen, Germany
Models for hot and cold-flat rolling for metallic materials
- 22.04. Holger Steeb, Ruhr-Universität Bochum, Germany
Modeling geomaterials – A challenge of material modeling
- 29.04. Ulrich Köhler, Ruhr-Universität Bochum, Germany
STM-studies of the copper and gold reaction with low index ZnO-surfaces
- 13.05. Christiane Helzel, Ruhr-Universität Bochum, Germany
A kinetic model for the sedimentation of rod-like particles
- 27.05. Stefan Blügel, Forschungszentrum Jülich, Germany
t.b.a.
- 03.06. Claus Heussinger
t.b.a.
- 10.06. Frederic, Soisson, CEA/Saclay, France
Kinetic Monte Carlo simulations of decomposition in Fe-Cr alloys
- 24.06. Sergei Dudarev, United Kingdom
Formation and dynamics of nano-dislocations under irradiation
- 01.07. Sybrand van der Zwaag
t.b.a.

The seminar takes place on **Mondays, at 4:30 p.m.** in the ICAMS seminar **room 0.08**,
Universitätsstr. 90a 129, 44801 Bochum
